A. Lesem's Kneipp Sanitarium

For the Cure of Acute and Chronic Diseases.

2455-2467 FIRST STREET, SAN DIEGO, CAL.

HIS institution is strictly a Kneipp Sanitarium. All treatments are administered in exact accordance with the precepts of Kneipp himself. Our marvelous success in curing the sick has been achieved by means of long experience, coupled with the knowledge of how to properly administer the various treatments, and by strictly confining ourselves to the Kneipp method of treatment. Numberless sufferers have come to us afflicted with very critical diseases which had been pronounced incurable by other means. But with our method of treatment, we have obtained the most astonishing results, restoring them to perfect health. We hold in our possession numerous testimonials substantiating the above statement—testimonials freely furnished to us by the best people in the city and elsewhere.

All sufferers desiring relief, who are not familiar with the Kneipp treatment as is practiced by us are requested to call, and we will furnish them with convincing proofs that any and all diseases, whether acute or of long standing will yield to our system of using the Kneipp method of treatment. We are open for nothing for consultation. Pamphlets furnished upon request.

Remember, all diseases cured without drugs or operation.

INTRODUCTORY

In presenting this, the ninth volume of our publication of the San Diego City and County Directory it is with the assurance that the canvass for information has been most thorough and every means possible used to make it as accurate as can be done in a publication of this nature.

We were delayed in commencing the canvass for names until the end of July so that consequently the time consumed in the preparation of this work has been less than in former years. Changes in business and removals occur so frequently in a rapidly growing city like San Diego that it matters little in what months of the year the work is carried to completion.

It is most gratifying to note the remarkable increase in the number of names this volume contains over that of last year. - In San Diego proper including City Heights the gain has been one hundred and seven pages with exactly the same measure of type.

This increase and allowing for reference slips, firm names and corporations gives us 27,500 individual names and using the conservative ratio of two as a multiple brings our estimate to a

Population of 55,000

and this will be found to be very close to the actual census of San Diego.

References have been made as heretofore from the different spelling of names with the same pronounciation which will be found of great assistance.

The street guide showing the numbers at intersections has been carefully revised with the assistance of the City Water Department this enables one to locate a house number with ease and will be appreciated by those consulting this volume.

Our Directory is exchanged with all the important cities throughout the United States, and thus affords a medium of advertising the city to the outside world.

We wish to acknowledge the liberal patronage of our business people to this work and to the public for their courteous treatment of our enumerators.

THE PUBLISHERS.
